Manfred Fischer
management consultancy

mfconcept is a management consultancy with almost 20 years of experience.

Arranging practice succession of established family doctors one of our main areas of work.

Through a long-term, conceptual and structured preparation of takeover we find a suitable successor in time. We successfully accompany both the outgoing and acquiring physician with complete service and consulting.

Public health management

MedicoProtect is the regional services designed for physicians. 20 Years of experience form the basis of our services in the health environment.

A key pillar is the practice succession management.

You will receive a consultation on the conceptual and organizational preparation and execution of the practice give up / practice acquisition, including the preparation of all the needed documents. We develop specific recommendations and accompany the entire process up to the takeover of the practice.

A high degree of flexibility increases the chances of success.
